Dear Sir:

Comments on the Notice of Intent To Issue Ex Parte Reexamination Certificate mailed March 27, 2025 ("NIRC") in the above-referenced reexamination are given below.

COMMENTS

Patent Owner OptiMorphix, Inc. thanks the Examiner and Conferees for the determination that confirmed claim 6 and found newly presented claims 17-19 to be patentable. To ensure a clear record Patent Owner notes the following.

Patent Owner maintains its adherence to its positions stated in this proceeding, including that the amendments to the claims were not necessary to render the claims allowable. Patent Owner respectfully does not agree with every characterization set forth in the NIRC of the teachings of the art made of record and discussed in the prosecution and reexamination proceedings.

Furthermore, Patent Owner respectfully maintains its view that the reasons for patentability set forth in the NIRC are not exhaustive of the reasons the claims are patentable.

Date: April 2, 2025

Respectfully Submitted,
